

# BROTHER EMBROIDERY WORKSHOP

## Supply List

*If you own an embroidery machine, we hope that you want to make the "most" of it, by learning about all of the optional "tools" and "features" that your machine has. Different machines have different features, but most Brother machines have a lot of the same special features. This class will work with you to make those features known and how to use them. It is not a "project" class, but a workshop to help you.*

Bring: Brother Embroidery machine with Embroidery Unit and power cord (not for Aveneer & Luminaires)

- Embroidery Foot
- Embroidery Hoop—5 X 7 up to 8 X 12 for this class—magnetic is fine as long as you have a regular one also, and have the "ruler strips" on them
- Embroidery Bobbin
- Embroidery Thread—two or three colors—bright
- Good needle—75/11 or Embroidery 90/14
- Marker--Frixion or washable (the blue one)
- Small Ruler
- Small scissors
- Tear Away Stabilizer—I will have some for you also
- SF101 or Moda Fusible Woven Interfacing—1 yard
- USB for needed designs

Fabrics and Designs will be provided
