

PUMPKIN TRIVET

Supply List

These pumpkins are “sew” much fun—and very addictive! I have made the three sizes that come with the embroidery files, and also one smaller and one larger—so you will have a good choice.

Bring: Embroidery file in your format—you can download the file at “JanineBabichDesigns.com”, select “free designs” and download the pumpkins. If you are unable to do that we can help you here—have a clean USB stick.

--Embroidery Machine with embroidery unit, embroidery foot and power cord

--Hoops—6” X 10” (smallest as design is 5 ¾” X 8”) and larger sizes also

--Fabric—I used the same fabric on the front and back, so 1/3 yard did one mat.

If you want a variety of sizes or colors, bring an assortment of fabrics and I would suggest ½ yard pieces as the back takes a good sized piece as it is folded double.

--Insul-Bright—1/2 yard for a couple of sizes—or get 1 yard if you plan for more

--Cotton Batting—1/4-1/2 yard as it is wide and will work for many, or if you have small pieces from other projects bring that.

--Mesh Cutaway stabilizer to fit hoops (Power Mesh, No-Show mesh)

--Bobbin thread (pre-filled is fine)

--Embroidery threads: one for quilting, one for accent stitching, two for stems

--Bobbin and thread for final outline—close to fabric color

--Applique scissors—sharp point!

--Point turner

--1/4” or ½” Steam A Seam tape to close back

**If you want to add any text to your pumpkin bring a thread for that
