

"LOVE YOUR LUMINAIRE" Hands-On Supply List—Class Oct 9, 2025 @ 10:00

This class is designed to help you along with the wonderful features on your Brother Luminaire. It is designed for "newer" owners or for refresher. If you have the latest upgrade, those will be covered in this class, including stitch tapering, edge to edge quilting, projector plus updates in Design Center.

We will also review basic features and settings to help you with your sewing and embroidery, and will stitch out a variety of those. The machine is "magic" and I want to be sure you enjoy all that it does!!

***If you have questions about anything on the machine, please let me know or bring your questions to the class.*

Bring: Brother Luminaire machine with embroidery unit

- Power cord , embroidery foot and foot control
- Accessory box with feet M-N-J especially
- Hoops—10" square or larger
- Few cones of embroidery thread
- Embroidery Bobbin and case
- USB stick (just in case)
- Tear Away Stabilizer

****other fabrics and support will be provided at class**
