Cut N Stitch Software Class
Class # 408 Nov17, 2026

We will continue working in Cut N Stitch software to create embroidery files, applique files and cut files for vinyl crafting and rhinestones.

We will spend some time reviewing various features, so if you are new to Cut 'N Stitch, this is a perfect class for you!

Topics:

- Working with text for stitching and HTV
- Applique: adjustments for pre-cut shapes
- Creating a rhinestone pattern to fit a garment

Bring projects you have created using the software!

Supply List:

- Laptop computer, power cord, mouse and **MOUSE PAD**
- Cut 'N Stitch software installed and activated on your computer.
- USB stick 2 GB Empty -- no other files or pictures (JUST IN CASE Aine has a file to work with in class)
- Optional: Notebook to take notes
