

BETSY BAG SUPPLY LIST NOV 22ND

the **Betsy Basket** pattern can be purchased from The Quilted Cow. The pattern makes a low top basket, but we are making a tall basket in class. Measurements will be provided, but you still need the instructions.

<https://thequiltedcow.com/products/betsy-basket-pattern>

1/3 yard for main

1/5 yard for accents, bottom, handles

5/8 yard for lining

1/9 yard SF101 for handles

1 yard foam - one sided fusible recommended

The pattern does not put interfacing on the lining. I have found it helps the lining stay on the bag, and helps with the stability of the bag. If interfacing the lining, you will need 1 yard of SF101.

These measurements do not account for directional fabric. If using directional, you need 20" width wise for the main.

Notions needed:

Sewing machine with cord & foot control

Pins

Clips

Rotary cutter

Ruler

Fabric pen like frixion

Point turner

Thread to coordinate with your fabrics

Seam gauge

Seam ripper

Sharp scissors

Stiletto
