Layered Christmas Highland Cow Shadow Box

Scan and Cut Project Supply List

Instructor - Barb Hembree

This project uses a total of 14 layers of 12”x12” cardstock to create the Christmas Highland Cow. It’s so fun to see it come to life.

Supplies needed

Scan N Cut machine with power supply and **OLD** mat (little or no sticky left on it) This is very important as sticky mats will shred the paper when removing it. I have several old mats I will bring some to share.

USB stick so I can copy the design for you
Weeding tool
Scissors
Blue painter’s tape

Variety of 12” x 12” Cardstock at least 65lb weight - you will need to bring extra as sometimes you might need to cut it more than once.
Cardstock choices are yours to select. The Colors used in the sample project are:

- 3 - Reds (Poinsettias)
- 1 - Pink (Muzzle)
- 2 - Black (Top Layer)
- 1 - Green (Leaves)
- 5 – Tans and Browns (Cow)
- 1 – Yellow (Ornaments)
- 1 - White (Snowflakes)

12”x12” shadow box frame I purchased from Micheal’s. Here is the link
