

DENIM EMBROIDERY

Shirt or Jeans

Supply List

This class will get you “started” on a fun project of embroidery. Think about what garment or item you want to stitch on, and what “look” you want. I have several examples to show, including a brand new stitched pair of jeans.

I will offer a wonderful selection of designs made for denim, and if you bring a second USB will give you the “workbook” file of Denim Embroidery from Anita Goodesign.

Bring: Embroidery machine with embroidery unit, power cord and embroidery foot

- Hoops—usually larger size, and magnetic is fine
- Stabilizer—usually a light to medium tear-away is great
- USB for design transfer
- Embroidery threads and embroidery bobbin
- Marker and ruler
- Seam ripper (if opening jeans)—if possible have that process started
- Basic sewing/embroidery supplies
- Basting Spray

Item to embroider on—if unsure what will be best bring a couple!
