Power mesh cutaway stabilizer – this soft stabilizer works great and does not leave the extra stiffness that other cutaways leave.

Embroidery Machine, Embroidery unit, power cord and foot control

Embroidery foot and J foot (basic sewing foot)

Embroidery Hoop – DIME magnetic hoops work great or hoop that are at least

10 5/8 wide by 10 5/8 tall. If you need a smaller version due to your hoop limitations please let me know and I can resize to fit your machine. You will be removing your hoop a few times for trimming and adding your lining fabrics.

Embroidery Bobbins and thread both sewing and embroidery to coordinate with your fabrics

Rotary Cutter/Ruler/Scissors/Other basic sewing supplies/ Tape to secure lining fabrics to back of hoop (I use painter's tape)

I have several designs to select from but if you have one of your own, we can incorporate it into the design process. **BRING USB stick for design.**
