Cut N Stitch Software from DIME by OESD   **Teacher: Aine McCarthy**

**Feb 25, 2026   6 pm**   **Class #137**

Class Description
Learn to navigate and create in Cut 'N Stitch – developed to bring machine embroidery and digital cutting together.

You will learn the basic functions of Cut 'N Stitch software:
- **Create applique designs from printed patterns**
- **Turn embroidery designs into files for a digital cutter**
- **Create designs for machine embroidered applique for either fabric or vinyl**
- **Create designs for rhinestones**

Interested? But don't own Cut N Stitch software yet? Come to class anyway!

Supply List

- **Laptop computer with power cord**
- **Mouse and mouse pad.**
- **Cut N Stitch software LOADED and activated on your computer. We will not have time to load software in class.**

Have you made items using the Cut N Stitch software, feel free to do a Show 'N' Tell!
