

VIKING EPIC 3 EMBROIDERY WORKSHOP

SUPPLY LIST

This class has been a "comedy of errors" as to scheduling, so hopefully this date and time will work for you! We plan to work exclusively with Embroidery, but if you have questions about sewing or quilting please let me know.

We will work on the following: Camera, Scanning and Projection

-Free Arm Embroidery—if you have the Free Arm Hoop please bring that, and if not bring your 120 square, and also another hoop (with adaptor if necessary) that is not too big. I have been able to work with other hoops and use the free arm technique—tricky but pretty nice!

- Design Positioning and "corner check" for placement
- Lettering
- Screen Adjustments and Settings

Bring: **Viking EPIC 3** Embroidery machine with Embroidery Unit

Power cord (foot control not necessary)

**If you have the new unit and hoops you will use that now

- Several Hoops (see paragraph above)
- "Q" Embroidery Foot
- Single stitch plate (if desired)
- Good embroidery needle(s)
- Embroidery bobbin (blue pre-filled preferred)
- Several colors of embroidery threads
- USB stick
- Fabric marker-frixion or water soluble
- Iron on tear-away or cut-away stabilizer
- Scissors & ruler
- (2) Fat quarters of light or "tone on tone" cotton
