Cut N Stitch Software Class
Class # _____
June 12, 2026

THIS CLASS IS OPEN TO EVERYONE – NOT JUST THOSE THAT ATTENDED THE MAY 9 WORKSHOP

We will create a machine embroidered applique design file from a printed pattern. You will use Cut N Stitch software to customize the owl with different applique techniques and finishing stitches.

We will use **Li'l Hooters** by Connie Spurlock.

Print out and artwork files will be provided.
(If you attended the May 9 workshop, we will be finishing the owl we started. If you missed the workshop, all files needed for this cute little owl are provided.)

Supply List:

- Laptop computer, power cord
- Mouse and **MOUSE PAD (the mats in the class room are not “mouse friendly”**
- Cut N Stitch software installed, activated **and updated** on your computer. We will not be able to load software in class.
- USB stick 2 GB Empty -- Has no other files or pictures
- Optional: Notebook to take notes

If you don't have the software but want to see it work, download the free Embroidery Tool Shed at <https://oesd.com/software> and come to class! This allows you to get a trial version of Cut N Stitch software for class.
